Participants can raise their hands

Control audio and video options

Screen sharing, session recording and chat options

You can chat with all participants, share files or message privately

The screenshot shows a Zoom window with a poll overlay. The poll is titled "Polls" and is currently "in Progress" with a timer of 0:09. It indicates that "Attendees are now viewing questions" and that "1 of 1 (100%) voted". The first question is "1. Do you like this video conference feature?". There are two response options: "Yes very much" with a blue progress bar at 100% (1 vote) and "Its fantastic" with a grey progress bar at 0% (0 votes). A red arrow points from the Windows taskbar to the poll window. The Windows taskbar at the bottom shows the search bar and several application icons.
