OUR UNIQUE ONLINE MEETING FORMAT

Roundtable Discussions

These interactive and informal discussion groups are the hallmark of the meeting. The brightest minds in the industry are brought together in 60-minute sessions that enable participants from all over the world to share ideas, challenges and lessons learned.

Personalised Agenda

Each delegate receives a personalised agenda with the roundtable discussions that you choose. You only attend sessions and meetings that fit your challenges and interests, ensuring your time spent on the online platform is focused and well-utilised.

One-to-one Meetings

The most effective and time efficient way to assess potential partners at a strategic level. Gain access to our exclusive networking app to identify the people that you need to meet. The app will allow for instant and direct messaging to organise online meetings during the dedicated time to most benefit you.

Strategic Networking

Strategic networking opportunities form a key benefit of the meeting. Our new online format for building and strengthening alliances to make lasting connections that benefit you.

VISIT WEBSITE

LAXAI is a fully integrated contract research and development organization that delivers solutions in drug discovery, chemical process R&D, and GMP manufacturing for innovator pharmaceutical, Biotech, and animal health companies globally. Over the years, our focus has been on providing highly efficient scientific solutions, which has enabled us to partner on more than 20 integrated drug discovery programs and multiple medicinal chemistry focused FTE collaborations. As a result, we have delivered clinical candidates and technology platforms across diverse therapeutic areas. Further, owing to our strength in chemistry and our experience in solving complex problems, we have been engaged on a number of chemical process R&D and GMP manufacturing projects by innovator pharmaceutical companies. This experience, spanning more than a decade, has enabled us to develop deep expertise in custom NCEs, and custom manufactured advanced intermediates and fine chemicals.

VISIT WEBSITE

Nanome, the first virtual reality (VR) software company to launch an immersive real-time collaboration platform for scientific discovery, is changing the way we understand and interact with science at the molecular level. The software environment allows users to visualize, modify, and simulate proteins, chemical compounds, and nucleic acids to accelerate scientific decision making. The platform facilitates effective communication of data and integrates with existing computational chemistry workflowsfeatures that have led to the adoption of the San Diego-based company's enterprise solution by several pharmaceutical and biotech companies worldwide. For more information, visit nanome.ai

VISIT WEBSITE

Dotmatics delivers a ready-to-use platform to capture, register, share, collaborate, query, visualise and analyse all the information and knowledge generated in the modern, highly collaborative scientific industries. Dotmatics has significant expertise in scientific informatics, including database management for chemistry and biologics, electronic laboratory notebooks, chemical and biological registration, screening data management, SAR analysis, reporting, and visualisation. The enterprise solutions are flexible, scalable and configurable, providing effective scientific information management across entire organisations, from discovery research to development and early manufacturing.

VISIT WEBSITE

Sai Life Sciences is a full-service CDMO driven by a vision to support the launch of 25 new medicines with our partners by 2025. Sai Life Sciences provides services to our pharma innovator partners, which accelerate the discovery, development and manufacture of complex small molecule therapeutic agents. Our clients gain clear competitive advantages through shorter time to market and risk minimization using our integrated and high-quality scientific services. Established in 1999, Sai has over 2,000 employees located at six R&D and manufacturing sites in India, the UK and USA. As one of India's fastest growing CDMOs, the company is investing over US \$ 150 M in augmenting its R&D and manufacturing capabilities, including setting up a Biology Lab in Cambridge, Mass. (USA) and a Process R&D Lab in Manchester, UK. Sai provides high value integrated services in all areas of chemistry from hit discovery to GMP manufacturing, pharmacology, DMPK, toxicology and formulation development to better support the increasing needs of our customers. Sai Life Sciences is backed by TPG Capital and HBM Healthcare Investments.

VISIT WEBSITE

At **Proventa Talent**, we always look ahead to ensure that the service we deliver to you is second to none, both now and in the future. Proventa Talent based around our three key principles of commitment, intelligence and partnership ensures an unparalleled recruitment solution in the industry. We work with the leading talent in the field to offer a service of high quality, efficiency and transparency. In addition to this, our relationship with many organisations across the Life Sciences sector means that we are constantly developing our recruitment services to offer market-leading solutions including Contingency, Executive Search, Contract and fully integrated Recruitment Process Outsourcing to suit your short, medium and long term needs.

VISIT WEBSITE

Sygnature Discovery is a leading integrated drug discovery and pre-clinical services company. We operate fully equipped modern research facilities in Nottingham and Alderley Park, UK, housing over 300 research scientists (>80% with PhDs). Our experienced drug hunters possess all the professional skills and know-how to enable success in the most demanding of research programmes and drive them from target validation through hit identification, hit-to-lead and lead optimisation to pre-clinical development candidate. Since 2011, we have delivered 31 drug candidates to our clients, 15 of which have subsequently entered the clinic (Phases I, II and III). To find out more about us, visit our website: www.sygnaturediscovery.com

VISIT WEBSITE

Iktos is a leading chemical research Artificial Intelligence company focusing on medicinal chemistry and de novo drug design. Iktos is developing two main innovative technologies based on deep learning: Generative Modeling, which enables to design compounds that are optimized in silico to meet all the success criteria of a small molecule drug discovery project, and Retrosynthesis Analysis, which uses a data-driven approach to predicting synthetic routes from known starting materials. Since its founding in 2016, Iktos has established ~20 collaborations with pharma and biotech companies, including Janssen, Merck KGaA, Merck & Co./MSD, Grünenthal, UCB, Leo Pharma, Orion, Almirall. SRI International, and other undisclosed ones.

VISIT WEBSITE

At PerkinElmer Informatics, our focus is on redefining how labs in Pharma, Biotech, Chemicals and major academic centers embrace electronic data capture, cloud-based applications and collaborative tools to manage and analyze their data. With our cloud based collaboration solutions and powerful visual analytics platforms, critical scientific data transforms into actionable insights in an automated, predictive and scalable way. Our solutions include the industry leading ChemDraw application, robust ELN, advanced analytics powered by TIBCO® Spotfire and the Signals Platform. The cloud based PerkinElmer SignalsTM platform unlocks the hidden knowledge within your scientific data whether you are working independently or collaboratively with solutions for Translational Medicine, Screening. Lead Discovery, and Biologics.

KEYNOTE PRESENTATION

David Gosalvez, PhD Director, Cheminformatics Product Portfolio PerkinElmer Informatics

MORNING KEYNOTE

Digital Transformation in Pharma R & D

In today's era of System Biology, assays are becoming more and more complex resulting in richer data sets for analysis. To accommodate and maximize the out put of this research data, a completely different IT framework is required. In this presentation we will:

- Overview the challenges resulting from this new era of big & complex data sources
- Introduce the Signals Platform designed to address these challenges
- Highlight some examples from lead discovery, screening and translational research

TIME SLOT (*B.S.T.)

12:00 - 12:30

Dan Ormsby Senior Consultant Dotmatics

AFTERNOON KEYNOTE

Real-world implementation of Al

Hear first hand from Dr Dan Ormsby and his ambitions to add a real-world implementation of AI providing routine machine learning into the Dotmatics platform

TIME SLOT (*B.S.T.)

17:30 - 18:00

LEARN MORE ABOUT OUR SPEAKERS

GO TO MENU

ARTIFICIAL INTELLIGENCE / MACHINE LEARNING

Tim Sparey
CEO
Novintum Bioscience

ROUNDTABLE TOPIC

Can using AI reduce attrition rates in drug discovery?

TIME SLOT (*B.S.T.)
12:30 - 13:30

Laurent Audoly
CEO & Founder
Parthenon Therapeutics

ROUNDTABLE TOPIC

Practical Advice on the Implementation of AI/ML in Drug Discovery

- Considerations around being a "market pull" or "tech push" company
- Discuss case studies where AI/ML has not delivered to expectations, and where it has. Metrics, outcomes.
- Fast forward 1 year from now where are the biggest opportunities. Extend to 5 years from now.

TIME SLOT (*B.S.T.)

19:20 - 20:20

LEARN MORE ABOUT OUR SPEAKERS

TRACK 2 DESIGN & CUSTOM SYNTHESIS

Jascha Blobel
CEO
Molomics

ROUNDTABLE TOPIC

Making the molecule design cycle a success

- What are the strength of specialists and machines in the drug design process?
- How can information/data be used to get to good lead compounds?
- What value can my collaborators and partners contribute?

TIME SLOT (*B.S.T.)

12:30 - 13:30

Alessandro Monge, PhD
VP, US Operations &
Business Development
Iktos

SPONSOR ROUNDTABLE TOPIC

Rethinking drug design and synthetic accessibility in the era of Artificial Intelligence

- What are the challenges in drug design that AI has the promise to address?
- What are the barriers, both technology-wise and operational, to the application of AI to drug discovery?
- What is the impact that AI has achieved so far and what is required to realize the full potential of AI technologies in drug design and synthetic planning?

TIME SLOT (*B.S.T.)

14:30 - 15:30

TRACK 3 INTEGRATED DRUG DISCOVERY

Mauro Marigo
Head of Medicinal
Chemistry
Endogena
Therapeutics, Inc.

Alex Müller, PhD
Head
Chemoinformatics
Endogena
Therapeutics, Inc.

ROUNDTABLE TOPIC

Activation of endogenous progenitor cells by small molecules, leading to controlled tissue repair and regeneration

TIME SLOT (*B.S.T.)
12:30 - 13:30

Dr Allan Jordan
Director of Oncology
Drug Discovery
Sygnature Discovery

SPONSOR ROUNDTABLE TOPIC

Internal vs. external drug discovery resources - what's the most effective way to advance a project?

- What are the pros and cons of internal vs. external drug discovery programmes?
- In what way can external resources augment internal capacity and capabilities?
- What are the key drivers for placing resources externally?
- What are the key success factors for external collaboration?
- Learning from experience what would we do differently next time?

TIME SLOT (*B.S.T.)

14:30 - 15:30

ROUNDTABLE TOPIC

Accelerating translation through strategic alliances

 How strategic alliances and collaborations can be a way of bridging the welldocumented translational gap that exists between basic biological research and insight and clinical evaluation.

> TIME SLOT (*B.S.T.) 18:00 - 19:00

TRACK 4 HIT TO LEAD IDENTIFICATION

Raghava Reddy Kethiri, PhD
Chief Scientific Officer
LAXAI Life Science Pvt. Ltd.

SPONSOR ROUNDTABLE TOPIC

Role of external drug discovery services in advancing the discovery pipeline

- Provides an access to external drug discovery expertise
- Meeting the quality and productivity expectation
- Role of communication & documentation

TIME SLOT (*B.S.T.)

14:30 - 15:30

Andy Merritt
Head of Chemistry
LifeArc Centre for
Therapeutics Discovery

ROUNDTABLE TOPIC

Hit and Lead Generation: Selection of screening sets and strategies to maximise success rates

- SP3 count and '3D-ness' does this impact on either fragment or hit like screening success?
- 'Protein target class' focused sets are they all just our imagination?
- DNA encoded libraries how big is too big?

TIME SLOT (*B.S.T.)

18:00 - 19:00

2019 ATTENDEES p.2

COMPANY	JOB TITLE
Novartis	Senior Investigator I
Novartis	Investigator III / Lab Head Screening Sciences
Novartis	Global Head, External Science & Drug Discovery, Global Discovery Chemistry
Novo Nordisk	Director
Novo Nordisk	Principal Data Scientist
Orion Pharma	Director, Global Medicine Design
Redx Pharma	Principal Scientist
Roche	Global Head Strategic Alliances, pRED Informatics
Roche	Head of Medicinal Chemistry
Roche Innovation Center	Large Molecule Research Digital Lead
Sanofi	Vice President, Head of North America Diabetes and Cardiovascular Scientific
	Communications, North America Medical Affairs
Sanofi	Director Integrated Drug Discovery Outsourcing
Sanofi	Director, External Innovation in Drug Discovery
Sanofi	Section Head Small Molecular Design
Sanofi	Head External Innovation Drug Discovery
Sentinel Oncology	Director of Chemistry
Sentinel Oncology Ltd	Director of Chemistry
Silence Therapeutics	VP, Head of Technology Innovation
Sosei Heptares	Medicinal Chemistry Director
Summit Therapeutics	Director, Chemistry
Topadur Pharma	Chief Operating Officer
Topivert Pharma	Head of Biology

COMPANY	JOB TITLE		
UCB	Director, Structural Biology & Biophysics		
UCB	Director (Structural Biology and New Modalities)		
UCB	Principal Scientist Crystallographer		
UCL	Senior Research Associate/ Lead Biologist		
University of Bradford	Head of Medicinal Chemistry		
University of Bristol	Professor of Organic Chemistry		
University of Central Lancashire	Chairman in Biosciences		
University of Geneva	Professor and Director		
University of Glasgow	Professor of Chemical Biology		
University of Nottingham	Professor of Developmental Physiology		
University of Oxford	Medicinal Chemistry Advisor		
University of Southampton	Professor, Director of Research		
University of Surrey	Professor of RNA Biology		
Vernalis	Research Director		
Vertex	Principal Research Fellow/ Head Biological Sciences		
Vertex	Head of Chemistry, UK		
Vifor Pharma	Director and Head of Toxicology		
Vifor Pharma	Head of Chemical and Preclinical
