## The Future Is Now – Key Objectives and Strategies for Making Sense of Pharmacovigilance Data and Driving Deeper Strategic Insights

Join this roundtable for an insightful conversation with your industry peers. Examine the latest trends and strategies influencing how leading firms are leveraging data and analytics to drive greater patient safety and operational efficiencies. Learn what business challenges and priorities are shaping investment objectives and timelines. Discover what other leaders are focusing on as they evolve their safety programs. Share your perspectives and gain valuable insights from firms that have seen results and with innovation initiatives underway.

### DISCUSSION TOPICS AND THEMES WILL INCLUDE:

- ▶ Realizing the strategic opportunity of data and analytics in pharmacovigilance today
- ▶ Bringing together diverse sources of structured and unstructured healthcare data
- ▶ Transforming data into intelligence through advancements in automation and analytics
- ▶ Achieving greater patient safety by enabling global teams to action insights in real-time

### SPEAKER

#### **Beena Wood** - Vice President Safety Product Management, ArisGlobal

**Beena Wood** has been in the Information technology space building products for over 26 years, with experience across multiple domains. She has led Engineering as well as Product Management teams. She comes from Oracle where she was in the Pharmacovigilance space for over 15 years, leading their Argus Safety Product Management teams, and most recently from Anju Software leading their Medical Affairs space, and loves building solutions to keep patients safe. She is excited to be part of ArisGlobal team and feels fortunate being part of something that matters to human lives. Beena lives in Portland in the beautiful Pacific NW, with her husband, a young daughter who loves to read, write, and dance, and a mini labradoodle. Beena's passion, apart from being part of Life sciences solutions that keeps patients safe, is to help kids that doesn't have the means to have better access to education, loves the ocean and hikes with her family, and to meditate.

#### **Emmanuel Belabe** - Associate Vice President of Solution Consulting, ArisGlobal

**Emmanuel Belabe**, better known as "Manny", has worked within ArisGlobal in a number of different roles over his 15 years with the company. During that time, he developed an approach that sought to educate clients on best practices for leveraging ArisGlobal products, while advocating on the best way to deliver additional value through the implementation of additional ArisGlobal solutions. This led to roles as Product Owner for Safety Solutions, and to his current role AVP of Solution Consulting where he is responsible for implementing tightly integrated tools that fit within the company's vision of providing a unified platform across all R&D domains.

### About ArisGlobal

**ArisGlobal** is transforming the way today's most successful Life Sciences companies develop breakthroughs and bring new products to market. Our end-to-end drug development technology platform, LifeSphere®, integrates our proprietary cognitive computing engine to automate all core functions of the drug development lifecycle. Designed with deep expertise and a long-term perspective that spans more than 30 years, LifeSphere® is a unified platform that boosts efficiency, ensures compliance, delivers actionable insights, and lowers total cost of ownership through multi-tenant SaaS architecture. Headquartered in the United States, ArisGlobal has regional offices in Europe, India, Japan and China.
