

**MEDICINAL CHEMISTRY**

WEST COAST DELEGATE LIST 2023

| Company Name                                | Job Title  |
|---|--|
| 858 Therapeutics                            | Sr. Director of Chemistry                                    |
| Abilita Bio                                 | CEO  |
| Adcentrx Therapeutics                       | Director   |
| AirBo                                       | CEO and Chief Medical Officer                                |
| Allele Biotech                              | CEO  |
| Allele Biotechnology & Pharmaceuticals Inc. | Project Leader   |
| Ambrx                                       | CSO  |
| Amgen                                       | Project Coordinator (Flow Cytometry)                         |
| Amgen                                       | Scientist  |
| Arcturus Therapeutics                       | Executive Director   |
| Arcturus Therapeutics                       | Scientist  |
| Biosplice Therapeutics, Inc.                | VP, Clinical Development and External Innovation             |
| Boundless Bio                               | Associate Director, Pharmacology                             |
| Bristol Myers Squibb                        | Scientific Associate Director   Research & Early Development |
| California State University San Marcos      | Professor  |
| Cidara                                      | Principal Scientist  |
| Cidara Therapeutics, Inc                    | Scientist  |
| Concarlo Therapeutics                       | Director of Bioanalytical                                    |
| Crinetics Pharmaceuticals, Inc.             | Senior Director  |
| Design Therapeutics                         | Associate Director of Computational Chemistry                |
| Design Therapeutics                         | Director, Computational Chemistry                            |
| Encodia                                     | Associate Director - Computational Biology                   |
| Entos AI                                    | VP of Chemistry  |
| Entos AI                                    | VP of Chemistry  |
| Escient Pharma                              | Director Chemistry   |
| Ferring Research Institute                  | Director, DMPK   |
| Genesis therapeutics                        | Sr. Director Med. Chem.                                      |
| Gossamer Bio                                | VP Chemistry   |
| GossamerBio                                 | Associate Director   |
| Herophilus                                  | VP and Head of Chemistry                                     |
| iBio  | Director of Machine Learning                                 |
| Inception Therapeutics                      | Director of Proteomics                                       |
| Inception Therapeutics                      | Head of Chemistry  |
| Inipharm                                    | VP of Discovery  |
| Janssen                                     | VP   |
| Janssen Pharmaceuticals LLC                 | Principal Scientist  |
| Kekulai                                     | CEO  |
| Lundbeck                                    | Principal Scientist  |
| Lundbeck La Jolla research Center           | Vice president and site head                                 |
| Lundbeck La Jolla Research Center, Inc.     | Director   |
| MEI Pharma                                  | Director of Translational Sciences                           |
| Navega Therapeutics                         | Cofounder and CSO  |
| NAVIGATE, A NOVARTIS SUBSIDIARY             | HEAD, BIOMARKER & DIAGNOSTIC DEVELOPMENT                     |
| Neurocrine                                  | Executive Director   |
| Neurocrine Biosciences                      | Executive Director - Head of Chemistry                       |
| Neuropore Therapies, Inc.                   | Associate Director   |
| NGM Bio                                     | VP, Program Team Leadership, Oncology Clinical Development   |
| Novartis                                    | Principal Scientist II                                       |
| Novartis                                    | Principal Scientist  |
| Paramita Therapeutics                       | CEO  |
| Pardes Biosciences Inc.                     | Executive Director   |
| Pendulum Therapeutics                       | Vice President, Head of Research and Development             |

|  |  |
|--|--|
| Pfizer                                   | Vice President   |
| Pfizer                                   | Principal Scientist  |
| Plexium                                  | EVP Drug Discovery   |
| RAPT                                     | Sr. Director   |
| Rayzebio                                 | Director   |
| RayzeBio                                 | Associate Director   |
| Recludix Pharmaceuticals                 | Senior Director for in vivo Pharmacology                   |
| Sanford Burnham Prebys Medical Discovery | Director of Medicinal Chemistry                            |
| shengke pharmaceuticals                  | cofounder and CSO  |
| SMSbiotech                               | CSO  |
| Sonoma Bio                               | Associate Director, Bioinformatics                         |
| Sorrento Therapeutics                    | Director of Chemistry                                      |
| Spectrum Pharmaceuticals                 | Senior VP, Clinical Science                                |
| Syrna Therapeutics, Inc.                 | CEO  |
| Takeda                                   | associate director   |
| Takeda                                   | Principal Scientist  |
| Takeda                                   | Director   |
| Takeda                                   | scientist  |
| Takeda Development Center Americas, Inc. | Principal Scientist  |
| Takeda Pharmaceuticals                   | Head of Oligonucleotide Chemistry and Platform Development |
| Venqis Therapeutics                      | CEO  |
| Viscient Biosciences                     | Director, Discovery Biology                                |
| Vividion Therapeutics                    | VP, Head of Chemistry                                      |
| Vividion Therapeutics                    | Director, Head of Computational Chemistry                  |
| Vividion Therapeutics, Inc.              | Associate director   |
| Vividion Therapeutics, Inc.              | Associate Director   |
| Zai Lab                                  | SVP, Translational Medicine                                |
