A Holistic Approach to RBQM: Exploring Regulatory Influences, Sponsor Roles and Technology Solutions

Join IQVIA Technologies for an immersive roundtable discussion about 'A Holistic Approach to RBQM: Exploring Regulatory Influences, Sponsor Roles and Technology Solutions.' This session, geared towards clinical operations leaders, will be dedicated to understanding a foundational RBQM framework, analyzing sponsor responsibilities, and exploring the power of technology in harmonizing disparate data sources. Together, we'll engage in rich a rich conversation to help redefine your approach to managing clinical trials with RBQM.

Discussion Points:

- ✓ The RBQM Framework and Regulatory Influences: A deep dive into the four-stage RBQM framework (Plan, Operationalize, Detect, Action) and how regulatory guidelines shape our approach towards efficient and compliant RBQM implementation.
- ✓ Unpacking Sponsor Roles in RBQM: A detailed exploration of the responsibilities and potential challenges that sponsors face throughout the RBQM lifecycle and trial duration.
- ✓ Bridging the Gap with Technology: Discussing how innovative solutions can address the issues of fragmented technology and disparate data sources, paving the way for a more holistic approach to RBQM.

SPEAKERS:

Jonas Renstroem - Director, IQVIA

Jonas has been instrumental in the development of Centralised Monitoring and Site Support capabilities that drive the RBM model and the clinical operations of the future. His expertise spans clinical trial process design, remote monitoring, clinical study leadership, decentralized trials and risk based monitoring. Jonas has a PhD in experimental haematology from TUM, Munich, Germany alongside a M.Sc. and an M.Ed., both from Uppsala University, Uppsala, Sweden.

Adrian Kizewski - Associate Director, IQVIA Technologies

Adrian brings expertise spanning R&D and clinical life sciences, business analysis, process design & improvement, and product implementation. Adrian holds an MBA from the McDonough School of Business at Georgetown University in addition to an MSc in Pharmacology from The Johns Hopkins University School of Medicine and a BSc in Biochemistry from Temple University.

ABOUT IQVIA:

IQVIA (NYSE:IQV) is a leading global provider of advanced analytics, technology solutions and clinical research services to the life sciences industry. IQVIA creates intelligent connections to deliver powerful insights with speed and agility — enabling customers to accelerate the clinical development and commercialization of innovative medical treatments that improve healthcare outcomes for patients. With approximately 82,000 employees, IQVIA conducts operations in more than 100 countries. Learn more at www.iqvia.com.
